1	1 gallon safety gasoline can
1	Quart two cycle engine oil
1	Quart gasoline stabilizer
1	12" Concrete cutting disc
1	12" Steel cutting disc
1	12" Carbide blade
1	Pair safety goggles
1	Spare drive belt
1	Spare air filter

(APPROVED BY U.S. GOVERNMENT – FEDERAL STOCK NO. 5130-763-0361)

SPECIFICATIONS

ENGINE	PARTNER 2-Cycle Fan Cooled Horsepower 7 Engine Speed 6500 RPM Blade Speed 6000 RPM
IGNITION SYSTEM	Bosch Flywheel, Magneto Type Enclosed and Weather Proof
FUEL SYSTEM	1¼ Qt. Sufficient for up to One hour running time. Carburetor – Tillotson diaphragm type. Saw Runs in any position.
DRIVE SYSTEM	Centrifugal Clutch and V Belt type. Clutch engages belt and blade at approximately 2800 RPM. This allows engine to idle without blade turning. The belt prevents breakage by allowing slippage if the blade jams.
BLADES	Three types to give fastest cutting in any material. Blade Diameter 12" Blades are specially designed for high speed and rough use.
OVERALL LENGTH	30"
DEPTH OF CUT	4"
WEIGHT	29 lb. (complete and ready to operate)

Exclusive Gas Stabilizer included to prevent carburetor from gumming up.

Conversion Kit available for chain saw use.

Also Available!

Conversion kit to change the K-12 to a chain saw:
